# How to Use Your Tricks Practice Cards!

We recommend **posting** a printed, laminated version of your Tricks Practice Cards on a prominent wall in your classroom. Simply print out each digital page, laminate, and post. Then, go over the display together as a class, saying, “S and the h (point to each letter as you say them) say /sh/ (point to letter combination as a whole) as in /sh/ /iiii/p/ (point to each letter and/or letter combination as you sound the word out), *ship* (point to word and say it as a whole).” Then practice reading the words on the next page that go with that “trick” by *sounding them out* together. Alternatively, you can simply go on to the next “trick.”

In addition, you can create a small **flip chart** out of your Tricks Practice Cards by punching two holes on the top of each printed, laminated page (one hole on the left and one hole on the right) and binding the pages together with metal rings. This compilation can be used to review the “tricks” with smaller groups of children.

You can also view this product **electronically** by using a classroom projector.
